

Mandy Drummond

Building information consultant

After 15 years as an architectural librarian, I can bring to companies the view from the other side.

I can help you to :

- ★ develop product information appropriate to the user;
- ★ create cost effective product information;
- ★ if required (together with an experienced graphic designer) create your catalogue/folder/brochure/fact sheet;
- ★ develop presentations that designers will be interested in seeing.

My charges are flexible, dependent on time, travelling time, and the amount of on-going work involved.
